SUMMARY

Machine Learning enthusiast with hands-on experience in building AI-driven applications, including data preprocessing, model development, and Retrieval-Augmented Generation (RAG). Skilled in Java , Python, NumPy, Pandas, and Matplotlib, with ongoing work in PyTorch and LLM fine-tuning. Comfortable working with backend tools like FastAPI, Flask and Docker.

SKILLS

Programming Languages: Python, Java, SQL

Data Science & ML: Data Analysis, Feature Engineering, NLP, Model Optimization, Machine Learning

Tools & Technologies: Git, Jupyter Notebook, TensorFlow (Basics), Hugging Face, Pycharm,whisper

PROJECTS

Book Recommender System

- Designed an NLP-based book recommendation system with vector search.
- Built an interactive dashboard for a seamless user experience.
- **Tech:** Gradio, LangChain, Hugging Face, ChromaDB.

Farmer's AI Chatbot

- AI chatbot for farmers providing market prices, pest control, and fertilizer recommendations.
- Integrated OpenRouter AI models for intelligent query classification.
- **Tech:** Flask, OpenRouter API, LangChain, Pandas.

University Notes Q&A Bot (RAG-based)

- Parsed and embedded PDF notes with Hugging Face + ChromaDB for semantic retrieval
 - Generated LLM answers via OpenRouter with FastAPI backend
 - **Tech:** Python, FastAPI, ChromaDB, Hugging Face, OpenRouter, Docker
-

EXPERIENCE

ML Intern (Virtual) | Yaane Technologies | Dec 2023 - Jan 2024

- Worked on a checkbox detection project using OpenCV.
- Successfully detected checkboxes in forms using OpenCV tools and techniques.
- Gained hands-on experience in computer vision and image processing.

Data Science (Virtual) | Codtechit Solutions |June 2024 - July 2024

- Built an NLP web app for Customer Review Sentiment Analysis with text preprocessing (tokenization, stemming, lemmatization, stop-word removal), achieving 92% accuracy.
 - Fine-tuned the ResNet-9 model for a plant disease recognition project, improving the accuracy of automated image classification.
-

EDUCATION

KPR Institute of Engineering and Technology

B.Tech AI & Data Science | CGPA: 8.1 | Nov 2022 - (Expected) July 2026

CO-CURRICULAR ACTIVITIES :

- **Googlathon 2.0:** Participated in a 24-hour generative AI hackathon at SNS College of Engineering.
 - **Amazon ML Challenge:** Competed in a 3-day virtual hackathon focused on product attribute extraction from images.
 - **Intel One API Hackathon:** Developed an emotional assistant using Hugging Face models in a 24-hour hackathon.
-
